

## Your Travel Itinerary is Changing, and for the Better!

Effective Tuesday, December 4th, 2012

### Improvements:

- Only one itinerary email at the time of reservation
- Your itinerary will now appear within the body of your confirmation email - no more links to click.  
If your travelers have a TripCase profile, they will receive their full itinerary in the body of the confirmation email also. However, the itinerary details will be available through the Print Itinerary button in the email regardless of the traveler having an account or not.
- Additional easy-to-print itinerary attached in a PDF file
- E- invoice attached to the itinerary email as a PDF
- Mobile capabilities, with one-touch access via your smart phone: BlackBerry®, Android®, or iPhone®

### Other Benefits of TripCase® :

- Flight and Gate Change alerts
- Seat Maps
- View e-receipts up to 13 months past travel date
- Add travel reservation to calendar
- Weather Forecast
- Currency Converter
- Baggage Claim information
